Algebra & Number Theory, Algebraic & Geometric Topology, Analysis & PDE, Geometry & Topology, and the *Pacific Journal of Mathematics* are part of MSP's **Subscribe to Open program**. If insufficient subscription commitments are received before the February 15 S2O deadline, later orders for these journals will be charged a higher price. Sufficient subscription commitments received before the S2O deadline will allow the entire publication year to be published open-access and the lower price to remain in effect. All subscribers who commit to order before the S2O deadline will be charged the lower price regardless of the S2O outcome. Please see later in this document for details, or visit msp.org/publications/s2o.

**Formerly the *Moscow Journal of Combinatorics and Number Theory*, ISSN 2220-5438, E-ISSN 2640-7361.

°A 5% agency discount is available for the *Pacific Journal of Mathematics* only.

PACKAGES available from MSP		Tier 1	Tier 2	LMI†
The MSP Package (E-Only)	*orders received before Feb 15 2025*	$3,855	$3,525	$1,930
	orders received after Feb 15 2025	$4,750	$4,145	
	MSP's basic package includes 14 journals: *Algebra & Number Theory,* Algebraic & Geometric Topology,* Algebraic Statistics, Analysis & PDE,* Annals of K-Theory, Combinatorics and Number Theory* (formerly the *Moscow Journal of Combinatorics and Number Theory*), *Communications in Applied Mathematics and Computational Science, Geometry & Topology,* Innovations in Incidence Geometry: Algebraic, Topological and Combinatorial, Involve, a Journal of Mathematics, Mathematics and Mechanics of Complex Systems, Probability and Mathematical Physics, Pure and Applied Analysis,* and *Tunisian Journal of Mathematics.*			
The MSP Expanded Package (E-Only)	*orders received before Feb 15 2025*	$4,498	$4,128	—
	orders received after Feb 15 2025	$5,618	$4,908	
	This package includes all journals in the MSP Package, PLUS the *Pacific Journal of Mathematics.**			
The EMS+MSP Joint Package (E-Only)	*orders received before Feb 15 2025*	$10,010	$9,685	—
	orders received after Feb 15 2025	$11,415	$10,815	—
	Includes all journals in the MSP Package,* PLUS all subscription journals offered by EMS Press. For a full list of EMS journals, please visit ems.press/info/libraries. This package may also be purchased from EMS Press. (The Joint Package does *not* include the *Pacific Journal of Mathematics*.)			

*Algebra & Number Theory, Algebraic & Geometric Topology, Analysis & PDE, Geometry & Topology, and the *Pacific Journal of Mathematics* are part of MSP's Subscribe to Open program. If insufficient subscription commitments to these journals, either individually or as part of packages, are received before the February 15 S2O deadline, later orders for these packages will be charged the higher price. Sufficient subscription commitments received before the S2O deadline will allow the entire publication year of these journals to be published open-access and the lower prices to remain in effect. All subscribers who commit to order S2O journals, or packages containing S2O journals, before the S2O deadline will be charged the lower price regardless. Please see later in this document for details, or visit msp.org/publications/s2o.

†Institutions in countries of low and low-middle income, as classified by the World Bank, are eligible to receive the MSP Package at the discounted LMI rate.

New Price Tiers

MSP has updated our tiered pricing. For 2025, we will use the **2021 Carnegie Classification of Institutions of Higher Education** for US institutions, and the **2023 Shanghai Academic Ranking of World Universities** for institutions outside the US.

New subscribers not listed in either ranking can contact MSP for a price quote. Non-degree-granting research institutes usually qualify as Tier 1.

Current subscribers should check their renewal invoice for the correct tier and price.

Tier	Carnegie Basic Ranking (US)	Shanghai Ranking (Rest of the World)
1	15 / "R1: Doctoral Universities - Very high research activity"	1-500
2	all others	all others

COUNTER Statistics via LibLynx

MSP now offers COUNTER-compliant usage statistics via LibLynx.

Current subscribers may visit msp.org/liblynxrequest to request a LibLynx user account.

LibLynx account users can download usage reports directly, and can configure SUSHI for automatic delivery.

Combinatorics and Number Theory: Same Journal, New Name

With the first issue of 2024, the journal formerly known as the *Moscow Journal of Combinatorics and Number Theory* (MJCNT) began publishing under a new title:

*Combinatorics and Number Theory*
ISSN 2996-2196;
E-ISSN 2996-220X
Journal webpage: msp.org/cnt

The newly named *Combinatorics and Number Theory* is still available for the same prices and as part of the same packages as the old *Moscow Journal of Combinatorics and Number Theory*, is managed by the same editorial board, and contains the same content. Readers wishing to read older articles under the previous title can find it alongside the newer content at msp.org/cnt.

Subscribe to Open at MSP

In 2025, MSP's Subscribe to Open program will again include 5 journals:

- *Geometry & Topology,*
- *Algebraic & Geometric Topology,*
- *Algebra & Number Theory,*
- *Analysis & PDE,* and
- the *Pacific Journal of Mathematics.*

If any one of these journals receives enough **commitments to subscribe before 15 February 2025**, all 2025 content published in that journal will be published **open access**. (A subscription to any package that contains these journals also counts towards the participation targets.)

If a journal in the S2O program does not receive enough commitments to subscribe before February 15, then that journal's 2025 content will remain behind its traditional subscription paywall.

Additionally, if the year remains locked, then a higher price is charged for orders received after the deadline.

Regardless of whether the participation threshold is met or not, **all paying subscribers will receive all the usual benefits of a traditional subscription.**

It is only with the participation of institutions like yours that our initiative will be successful. With your help, we can ensure the long-term sustainability of open-access content, using a model that makes sense for mathematics.

You can read more about Subscribe to Open at MSP at msp.org/publications/s2o.

HOW TO ORDER

MSP is pleased to partner with regional distributors to help handle orders from the following regions: **Australia, Brunei, China, Hong Kong, India, Indonesia, Japan, Macau, Malaysia, Myanmar, New Zealand, Philippines, Singapore, South Korea, Taiwan, Thailand, and Vietnam.** For subscriptions from these regions, please visit msp.org/publications/agents for the appropriate contact information.

For all subscriptions in all other parts of the world, please place your order by one of the following methods:

- contact your preferred agent or bookseller;
- request pricing information at msp.org/forms/orders; or
- request a direct invoice from contact@msp.org.

Payment Information & Policies

- All prices are in US dollars.
- We accept payment by check, ACH transfer, and wire transfer.
  - Checks should be made payable to Mathematical Sciences Publishers.
  - Account information for ACH or wire transfer is available upon request. We may charge an additional fee for processing wire payments.
  - Send all orders and payments to: **Mathematical Sciences Publishers, 2000 Allston Way #59, Berkeley, CA 94701-4004, United States**, or to contact@msp.org.
- Orders for the *Pacific Journal of Mathematics* may apply a 5% agency discount. No other agency discount is available for any of our other journals.

ABOUT MSP

Mathematical Sciences Publishers is a not-for-profit corporation based in Berkeley, California. We produce and distribute scientific and research literature; develop and license software for scholarly publishing; and offer hosting, copyediting, and other services for editorial boards, scholarly societies, and other publishers.

A green open-access publisher, MSP produces more than 17,000 pages per year, covering mathematics and other selected fields. We strive to offer scientific research publications of the highest quality at the lowest sustainable prices. Our outstanding editorial boards and highly selective peer-review workflows guarantee the impact of our articles. Papers are edited for grammar, consistency, and clarity of exposition, with the mathematics laid out at high typesetting standards.

We believe that scientific publishing should be an industry that helps rather than hinders scholarly activity. MSP honors the best traditions of quality publishing while actively working to improve the academic scholarship industry for the future.
