*Algebra & Number Theory, Algebraic & Geometric Topology, Analysis & PDE, Geometry & Topology, and the *Pacific Journal of Mathematics* are part of MSP's **Subscribe to Open** program. If insufficient subscription commitments are received before the February 15 S2O deadline, later orders for these journals will be charged a higher price. Sufficient subscription commitments received before the S2O deadline will allow the entire publication year to be published open access and the lower price to remain in effect. All subscribers who commit to order before the S2O deadline will be charged the lower price regardless of the S2O outcome. Please see later in this document for details, or visit msp.org/publications/s2o.

Send subscription orders to: 2000 Allston Way #59 · Berkeley CA 94701-4004 · USA · contact@msp.org

Please see later in this document for details, or visit msp.org/publications/s2o.

°A 5% agency discount is available for the *Pacific Journal of Mathematics* only.

Packages available from MSP			Tier 1	Tier 2	LMI†
The MSP Package (E-Only)		orders received before Feb 15 2026	$4,045	$3,695	$2,025
		orders received after Feb 15 2026	$4,975	$4,340	
	MSP's basic package includes 14 journals: *Algebra & Number Theory,* Algebraic & Geometric Topology,* Algebraic Statistics, Analysis & PDE,* Annals of K-Theory, Combinatorics and Number Theory* (formerly the *Moscow Journal of Combinatorics and Number Theory*), *Communications in Applied Mathematics and Computational Science, Geometry & Topology,* Innovations in Incidence Geometry: Algebraic, Topological and Combinatorial, Involve, a Journal of Mathematics, Mathematics and Mechanics of Complex Systems, Probability and Mathematical Physics, Pure and Applied Analysis,* and the *Tunisian Journal of Mathematics.*				
The MSP Expanded Package (E-Only)		orders received before Feb 15 2026	$4,720	$4,327	—
		orders received after Feb 15 2026	$5,885	$5,142	
	This package includes all journals in the MSP Package, PLUS the *Pacific Journal of Mathematics.**				
The EMS+MSP Joint Package (E-Only)		orders received before Feb 15 2026	$10,775	$10,435	—
		orders received after Feb 15 2026	$12,395	$11,770	
	Includes all journals in the MSP Package,* PLUS all subscription journals offered by EMS Press. For a full list of EMS journals, please visit ems.press/info/libraries. This package may also be purchased from EMS Press. (The Joint Package does *not* include the *Pacific Journal of Mathematics*.)				

Algebra & Number Theory, Algebraic & Geometric Topology, Analysis & PDE, Geometry & Topology,* and the *Pacific Journal of Mathematics* are part of MSP's **Subscribe to Open program. If insufficient subscription commitments to these journals, either individually or as part of packages, are received before the February 15 S2O deadline, later orders for these packages will be charged the higher price. Sufficient subscription commitments received before the S2O deadline will allow the entire publication year of these journals to be published open access and the lower prices to remain in effect. All subscribers who commit to order S2O journals *or* packages containing S2O journals before the S2O deadline will be charged the lower price regardless. Please see later in this document for details, or visit msp.org/publications/s2o.

†Institutions in countries of low and low-middle income, as classified by the World Bank, are eligible to receive the MSP Package at the discounted LMI rate.

Note: *Mathematica Scandinavica* is only available as a single-journal subscription and is not listed in this table. See page 2 for *Mathematica Scandinavica*'s full pricing information.

Price Tiers

Following recent updates to the Carnegie Classification and Shanghai Academic Ranking lists, MSP has updated our tier system.

For 2026:

- For institutions **within the U.S.**, MSP price tiers will refer to the newly created **Research Activity Designation** released in the **2025 Carnegie Classification of Institutions of Higher Education**, as shown below. (Please note that the Research Activity Designation is a new classification for 2025 and does not have an equivalent in previous releases.)

- For institutions **outside the U.S.**, MSP price tiers will refer to the **2024 Shanghai Academic Ranking of World Universities**, as shown below.

New subscribers not listed in either ranking can contact MSP for a price quote. Non-degree-granting research institutes usually qualify as Tier 1.

Current subscribers should check their renewal invoice for the correct tier and price.

Tier	Carnegie 2025 Research Activity Designation (U.S.)	Shanghai Ranking (Rest of the World)
1	Research 1: Very High Spending and Doctorate Production	1-500
2	all others	all others

Now available from MSP: *Mathematica Scandinavica*

Starting in 2026, MSP is proud to offer *Mathematica Scandinavica* (E-ISSN 1903-1807; ISSN 0025-5521) alongside our other publications.

In 2026, *Mathematica Scandinavica* is available as a single-journal subscription only. No discounted package options are available.

Mathematica Scandinavica content will be moved to MSP's website, and will continue to be available at www.mscand.dk in the meantime.

For more about this news and what it means for *Mathematica Scandinavica*, please visit our homepage, [msp.org](msp.org).

COUNTER Statistics via LibLynx

For our subscription journals, MSP offers COUNTER-compliant usage statistics via LibLynx. Current subscribers may visit msp.org/liblynxrequest to request a LibLynx user account.
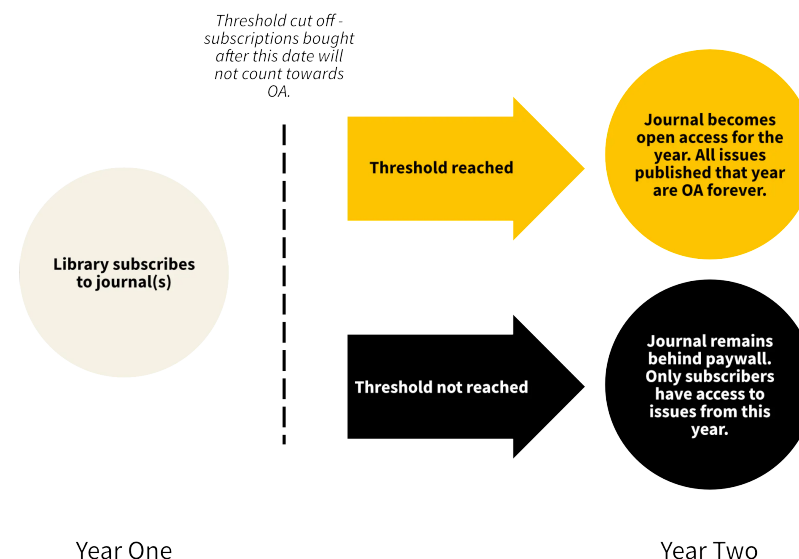

LibLynx account users can download usage reports for their subscribed journals and packages directly, and can configure SUSHI for automatic delivery.

Subscribe to Open at MSP

In 2026, MSP's Subscribe to Open program will again include 5 journals:

- *Geometry & Topology,*
- *Algebraic & Geometric Topology,*
- *Algebra & Number Theory,*
- *Analysis & PDE,* and
- the *Pacific Journal of Mathematics.*

If any one of these journals receives enough **commitments to subscribe before 15 February 2026**, all 2026 content published in that journal will be published **open access**. (A subscription to any package that contains these journals also counts towards the participation targets.)

Threshold cut off - subscriptions bought after this date will not count towards OA.

Library subscribes to journal(s)

Threshold reached → Journal becomes open access for the year. All issues published that year are OA forever.

Threshold not reached → Journal remains behind paywall. Only subscribers have access to issues from this year.

Year One — Year Two

If a journal in the S2O program does not receive enough commitments to subscribe before February 15, then only paid subscribers will have access to 2026 content.

Additionally, if the year remains locked, then a higher price is charged for orders received after the deadline.

Regardless of whether the participation threshold is met or not, **all paying subscribers will receive all the usual benefits of a traditional subscription.**

It is only with the participation of institutions like yours that this new model will flourish. With your help, we can ensure the long-term sustainability of open-access content, using a model that makes sense for mathematics.

You can read more about Subscribe to Open at MSP at msp.org/publications/s2o.

HOW TO ORDER

MSP is pleased to partner with regional distributors to help handle orders from the following regions: **Australia, Brunei, China, Hong Kong, India, Indonesia, Japan, Macau, Malaysia, Myanmar, New Zealand, Philippines, Singapore, South Korea, Taiwan, Thailand, and Vietnam.** For subscriptions from these regions, please visit msp.org/publications/agents for the appropriate contact information.

For all subscriptions in all other parts of the world, please place your order by one of the following methods:

- contact your preferred agent or bookseller;
- request pricing information at msp.org/forms/orders; or
- request a direct invoice from contact@msp.org.

Payment Information & Policies

- All prices are in US dollars.
- We accept payment by ACH transfer, wire transfer, or check.
  - **Past ACH and wire customers should please note that our electronic payment information has changed as of February 2025**. Past ACH and wire customers will receive renewal invoices showing our current payment instructions. New customers, or customers wishing to switch to ACH or wire payments, can request transfer information by emailing contact@msp.org. We may charge a fee for processing wire payments.
  - Checks should be made payable to Mathematical Sciences Publishers.
  - Send all orders and payments to: **Mathematical Sciences Publishers, 2000 Allston Way #59, Berkeley, CA 94701-4004, United States**, or to: contact@msp.org.
- Orders for the *Pacific Journal of Mathematics* may apply a 5% agency discount. No other agency discount is available for any of our other journals.

ABOUT MSP

Mathematical Sciences Publishers is a not-for-profit corporation based in Berkeley, California. We produce and distribute scientific and research literature; develop and license the peer-review software EditFlow™; and offer hosting, copyediting, and other services for editorial boards, scholarly societies, and other publishers.

A green open-access publisher, MSP produces about 25,000 pages per year, covering mathematics and other selected fields. We strive to offer scientific research publications of the highest quality at the lowest sustainable prices. Our outstanding editorial boards and highly selective peer-review workflows guarantee the impact of our articles. Papers are edited for grammar, consistency, and clarity of exposition, with the mathematics laid out at high typesetting standards.

We believe that scientific publishing should be an industry that helps rather than hinders scholarly activity. MSP honors the best traditions of quality publishing while actively working to improve the academic scholarship industry for the future.
